

Overview

With help of this Astronomical Time Switch it is possible to switch ON & OFF the lights automatically, thereby reducing power wastage and increasing energy savings. It adjusts itself to the varying sunrise & sunset times through-out the year depending on the season. Moreover it allows user to set early turn-Off times in case if lights are not required the whole night on hourly basis.

Benefits

- Huge energy savings; quick returns on investment
- Complete automation, No manpower required
- Highly accurate switching of lights with precision to the minute
- ZERO maintenance, Extension of lamp life
- Seasonal variations & Twilight during dawn and dusk are considered

Specifications

Intended Load	Single Phase Max 10KW
Contact Rating	40A @ 250VAC
Degree Of protection	IP-55
Supply Voltage	100 - 240 VAC , 50/60 Hz
Max Timer Power	1W
Operating Temperature	-10°C to + 50°C
Dimension(H x W x D)	180mm x 180mm x 110mm
Weight	1000g

Application Areas:

**Private/Public
Street Lights**

Signage

**Campus Garden/Compound
Lights**
